

# NUR 118 : Health Care Transition for the Allied Health Professional

This course focuses on application of nursing concepts to allied health professionals into the role of the practical nurse. Emphasis in this course is placed on evidence-based clinical decision making and nursing concepts provided in a family and community context for a variety of health alterations across the lifespan. Designed to bridge previously gained health care knowledge, skills and abilities of the certified medical assistant, and paramedic to the role of the practical nurse. This course serves as a refresher for the nurse who desires practical experience before returning to the workforce.
