

CET 223 : Site Planning and Development

This course is an overview of the engineering principles of site grading and development. Topics include building orientation, parking, traffic flow, drainage, site grading, and earthwork. Upon completion of this course students will be able to design a site to include grading, drainage, parking, and building orientation.

Program

Civil Engineering

Hours 3

Lab Hours 4

Theory Hours 1

Prerequisites

MDT 105 and/or as required by program
