

DPT 100 : Introductory Computer Skills I

This course places emphasis on the usage of personal computers and software applications for personal and workplace use. Topics include impact of computers in business and industry, word processing, spreadsheets, ethical issues, database, and related concepts. Upon completion, the student will be able to demonstrate computer skills as applied to occupational-related fields. This course does not satisfy the general education component of most degrees and may not be used by Computer Science majors as an elective.
