

# EET 225 : Electronics Communications

A study of electronic circuits used for communication. Topics include amplitude modulation, frequency modulation, single sideband operation, and performance measurements. Upon completion of this course, a student will be able to analyze and operate a simple communication system.

**Program**

Electronic Engineering Technology

**Hours** 3

**Theory Hours** 3

**Prerequisites**

EET 104, INT 103, or AUT 111
