

Alabama Workforce Solutions

Gadsden State and Alabama Technology Network (ATN) arrange a wide variety of appropriate educational experiences for employees of area businesses and industrial firms. Through a cooperative network of business and education, Gadsden State and ATN work to identify needs of existing industry and deliver technical assistance, technology solutions and customized training.

Upon request, customized training is available and may be provided on-site for topics such as management and leadership, workforce safety, Lean Manufacturing and ISO quality standards, Practical Energy, computer, cooperative learning, industry certification, Spanish language training and more.

For additional information, contact ATN at 256.549.8162.

Those receiving training through Alabama Workforce Solutions are not eligible for federal student aid.
