

CET 223: Site Planning and Development

This course is an overview of the engineering principles of site grading and development. Topics include building orientation, parking, traffic flow, drainage, site grading, and earthwork. Upon completion of this course students will be able to design a site to include grading, drainage, parking, and building orientation.

Credits: 3

Lab Hours: 4

Theory Hours: 1

Prerequisites:

MDT 105 and/or as required by program

Program: [Civil Engineering](#)
