

# MLT 151: MLT Clinical Chemistry

This course emphasizes theories and techniques in basic and advanced clinical chemistry. Coverage includes various methods of performing biochemical analyses on clinical specimens. Upon completion, students should be able to apply the principles of medical chemistry, evaluate quality control, and associate abnormal test results to clinical significance.

**Credits:** 5

**Lab Hours:** 2

**Theory Hours:** 3

**Prerequisites:**

Admission to program and permission of instructor

**Program:** [Medical Laboratory Technology](#)
